## General

I'm a beginner Front End developer and am looking for a company where I can increase my skills. I'm interested in learning new methods and technologies that helps me to grow as a Frontend Developer. I'd like to become a member of an experienced team in the role of Frontend Developer.

---

---

## Skills

HTML5, CSS3 (Flexbox, CSS Grid), JavaScript (jQuery, ES5, ES6+), React | Redux, TypeScript (basic), Twitter Bootstrap 4, SCSS | SASS | BEM, Angular 6+ ( basic)

Technologies: GIT, Webpack | Gulp, Webstorm | VSCode, Photoshop, Figma, Trello

---

---

## Work Experience

---

### Front End in Votan project

#### Hillel EVO

OCTOBER 2020 - PRESENT, KYIV, UKRAINE

Votan is a single page application for making secure surveys in OSBBs. It helps you to create authorized voting that considers the weight of the user. Application calculates weight depending on a quantity of square meters or a number of facilities.

<https://github.com/Mistok/Votan>
